Loewe callas

The compact set for classic television and comfortable streaming

Brilliant and natural picture

Comfortable TV watching in Ultra HD and Full HD resolution including a full range of HDR formats up to Dolby Vision, delivered by panels exclusively tailor-made for Loewe in 32 and 43 inch.

Based on VA type LCD technology with super-slim edge LED backlighting, ALCW (Anti-Lateral Colour Wash-out) sheet and additional DBEF (Double Brightness Enhancement Foil) as well as special phosphors, they achieve both: Great viewing angle, wide colour gamut for vibrant colours, fast reaction time and low energy consumption in a true flat cabinet design.

Flexible connectivity possibilities

The Loewe chassis SL8 family is based on a high performance main CPU and runs with Loewe os8 for fast operation and full support on features, apps and connectivity standards.

The HDMI 2.1 inputs support VRR up to Ultra HD resolution for gaming consoles. And eARC allows connecting a Loewe klang bar to enjoy the latest movie audio codecs such as Dolby Atmos in high resolution surround sound. With USB you can connect memory devices for recording or timeshifting of TV broadcast, live or programmed via the premium EPG.

Super fast smart streaming

The super-fast Loewe os8 offers all important VoD services like Netflix, YouTube, Disney+, Apple tv+, Freeview Play, HD+, Zattoo, FIFA+ and many more. It also supports Apple AirPlay and DTS Play-Fi for great network interaction and connectivity with smart home and multiroom audio devices.

The comfortable alu-made Loewe remote offers six direct streaming buttons plus control via the illuminated cursor field. Paired by Bluetooth, it also supports voice commands on your TV. Simply activate the microphone by the push of a button.

Integrated front-firing soundbar

Superior sound with 60 watts, clear speech-intelligibility and Dolby Atmos processing: Our own in-house Loewe audio development and sophisticated sound tuning ensures best acoustic reproduction and movie enjoyment.

Adding the wireless Loewe klang sub1 makes it a 2.1 system with more bass. Or connect a Loewe klang bar via eARC for an impressive home cinema experience.

With Apple AirPlay and DTS Play-Fi you can also enjoy direct streaming and multiroom audio.

Sophisticated 360° design

Design and quality Made in Germany: A well refined design with fabric covered soundbar, cable management, covers, hidden connections and spray-painted cabinet is without comparison.

The mechanical construction is clever and robust, with solid VESA bolts funded in the metal main structure. A rotatable table stand made of metal with a real chrome finish creates a fine appearance.

Modular setup solutions

Optional accessories and setup solutions allow an individual adoption of your TV to perfectly fit your needs and living space.

The rotating Loewe floor stand c in chrome is made for Loewe callas and presents it most elegant. The unique Loewe floor2ceiling stand creates its own impressive style. Different Loewe wall mounts, also for the klang bars, support any wall installation.
